No. NF-12042/3/2020

Dated 17.07.2020

Office Memorandum

NFRA's mandate is to protect the public interest, and the interests of investors, creditors and others associated with the companies or bodies corporate (in other words, the users of corporate financial statements) over which it has jurisdiction. NFRA has to achieve this objective by establishing high quality standards of accounting and auditing, and exercising effective oversight of accounting functions performed by companies, and auditing functions performed by auditors. Audit Quality Reviews (AQRs) are an essential component of the method used by NFRA to monitor compliance with accounting and auditing standards. They also provide key inputs to the investigation and disciplinary proceedings activities of the NFRA.

2. Given the paramount public interest protection mandate of the NFRA as detailed above, the need has been strongly felt for setting up an Advisory Committee that could adequately reflect and express the views and concerns of the users of corporate financial statements, and preparers.

3. Rule 15 of the NFRA Rules, 2018, provides that the NFRA may constitute advisory committees, study groups and task forces for the effective performance of its functions under the Act.
